

FOR ALL STUDENTS AT MDH - HALF-TIME - 7,5 ECTS - IN ENGLISH

# MULTICULTURAL IMPROVISATION

- Are you interested in meeting people with different cultural backgrounds? To work together and learn about them and their cultures?
- Would you like to efficiently develop your multicultural awareness and your social skills?
- How about studying by using active, creative, experimental and fun methods of improvisation, drama and theatre?

The course will explore various cultures by drawing on the participants' own personal experiences. You will develop and expand your own multicultural awareness and social communication skills useful, for example, in working life, and also get a chance to expand your international social network and to make friends from different cultures. The course is for all students at MDH; Swedish as well as foreign guest students.

This will be a 10 week half-time course, 7,5 ECTS, starting on November 3 with two contact sessions per week (Tuesdays and Thursdays). The lecturers would like to invite all students who are curious about the course topics.

No previous experience of theatre is required.
